Instructions To Assist with Writing Your Work Resume'...

- Be sure to include every position held, and compensated, since being hired by the Carrier
- Provide adequate detail on the work you performed while working a particular position. Where/when possible, explain how special projects were completed— i.e, “a cross-over switch panel installation requires (step 1, step 2, step 3)” while detailing your personal involvement in that project/position
- For Dates, include *Month* and *Year* you began position, and if still holding a seniority roster for that position, state “continuing”
- If more space is needed, continue to next (Description...), include the position again and state “continued from above...”
